7 years building production AI — LLM systems, generative AI, Hollywood VFX. Currently: legal and financial documents.

■ EXPERIENCE

● **AI/ML Engineer** — Constellation Finance · Seed: \$3.5M Mar 2026 - Present

Multi-agent LLM systems

- Lead developer on the MCP (Model Context Protocol) product — AI agent access to financial data
- Multi-agent extraction pipeline for 200–400 page legal contracts, with Logfire-instrumented research loop

Machine Learning Engineer — lambda.ai · Series B → C Jun 2022 - Oct 2024

Cited by Google Research

- Stable Diffusion inference benchmark cited by Google Research (Muse paper, 2023)
- Built and optimized the LLM pipeline for news.lambda.ai (AI-generated ML news site)
- Published Stable Diffusion finetuning demos on Hugging Face

Machine Learning Engineer — Deep Voodoo · via lambda.ai Jun 2022 - Dec 2023

Hollywood VFX in production

- Transitioned a deepfake research pipeline to production
- Built reproducible GPU training environments for VFX delivery cycles
- R&D in image restoration and controllable image generation

AI Software Engineer — Boston Consulting Group Jun 2019 - Jul 2021

Big 3 consulting

- Production data pipelines (PySpark / Pandas) across the major clouds
- Built a JFrog-based CI/CD frontend so consultants could self-deploy cloud coding environments

EARLIER

Pre-seed startup — Recommender system POC for e-commerce 2018 - 2019

Orange Telecom — time-series classification research 2018

Pre-seed startup — NLP analytics, graph community detection 2016 - 2017

■ EDUCATION

M.S. Machine Learning · Université Paris Dauphine - PSL 2017 - 2018

MBA · Bentley University 2015 - 2016

M.Sc. Management · NEOMA Business School 2011 - 2014
